LOQ = Limit of Quantitation, ND = Not Detected, NT = Not Tested. Total THC and Total CBD are calculated in accordance with Oregon reporting requirements (OAR 592-064-0100). For cannabinoid analysis, only CBDA, CBD, THC, THCA, and Δ8-THC are CREAP-accredited analytes. Cannabinoid values reported for plant matter are converted for dry weight. Oregon water activity (aw) level is a figure and moisture content action level is 15%. Shown values have been rounded to 3 decimal digits, whereas calculations are performed with all available digits. LOQ Values based on LOQ study available upon request. This report shall not be reproduced, in whole or in part, without approval from Professional Testing Labs, Inc. Test results relate only to the sample material analyzed. Results valid for 1 year after test date.
