Total Cannabinoids	17.88%	Sum % Cannabinoids - Total Cannabinoids	

Moisture Content - Not Tested

Date: NT	Analyst: NT	Method: SOP 047

Water Activity - Not Tested

Date: NT	Analyst: NT	Method: SOP 047

Moisture Content (%) - Not Tested

Water Activity (aw) - No Test

LOQ = Limit of Quantification, NT = Not Tested, NT = Not Tested. Total THC and Total CBD are calculated in accordance with Oregon reporting requirements (OAR 322-064-0040). For cannabinoid analysis, only CBDA, CBD, THC, THCA, and Δ8-THC are ORELAP accredited analysis. Cannabinoid values reported for plant material are corrected for dry weight. Oregon water activity criteria level is 0.65aw and moisture content action level is 15%. Shown values have been rounded to 3 decimal digits, whereas calculations are performed with all available digits. LOQ Values based on LOQ study available upon request. This report shall not be reproduced, unless in its entirety, without approval from Professional Testing Labs, Inc. Test results relate only to the sample material analyzed. Results valid for 1 year after test date.
